What is this product?

Type

This product is a class of share of the Compartiment and denominated in GBP. The Fund BOUSSARD & GAVAUDAN SICAV is an open-ended investment company with a variable capital and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

As an investment fund, the return of the Compartiment depends on the performance of its underlying assets.

Objectives

Investment objective: The investment objective of this Compartiment is to provide capital growth over long term period by investing and arbitraging primarily in a diversified portfolio of "Convertible Securities" (as defined in Appendix 2, Section I 1.2 of the prospectus). The Compartiment aims to outperform the Refinitiv® Global Focus hedged in EUR over a recommended investment horizon of five years.

Investment policy: At least 2/3 of the Compartiment's net assets will be invested in Convertible Securities or other debt securities issued by (or referencing) companies (i) domiciled or operating in Europe and North America or (ii) within groups conducting a preponderant part of their activities in Europe and North America. The strategies aim to gain market exposure primarily to European and North American companies via convertible bonds, equity options and index options.

The portfolio construction will depend on investment opportunities, mostly based on internal fundamental research and selection, and on the risk management. Because of its hybrid nature and different several components, Convertible Securities may present opportunities to pursue several strategies from time to time:

- Long exposure: this strategy involves taking a long position in a convertible bond in an attempt to profit from:
 - credit improvement (narrowing of spreads),
 - current income (carrying yield),
 - equity appreciation, and/or
 - special situation or merger arbitrage.
- Convertible bond arbitrage (including mandatory convertible bonds arbitrage), expressed with long convertible bond, short the underlying stock and sometimes short the issuer credit
 - seeking to take advantage of the fixed income and equity characteristics of a convertible bond through an arbitrage when the price of the convertible bond differs from the sum of the value of each of its components. The equity component is often hedged by short selling the underlying stock and may also involve seeking to hedge interest rate or credit exposures;
 - seeking to take advantage of the "skew" through a cheap call volatility compared to the issuer credit level.

On an ancillary basis, the Compartiment may also:

- take exposure to any other transferable securities such as, but not limited to, equities, and any other financial derivative instruments such as, but not limited to, CFDs, warrants, rights, callable asset swaps, index futures, forwards, and/or
- Invest in exchange-traded funds (ETFs) of open and closed-ended type.

For all strategies, selection shall be based mostly on internal fundamental research and may present a bias towards value securities.

The Compartiment is actively managed and uses the benchmark for performance comparison purposes only. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant. The benchmark does not take into account the ESG strategy promoted by the Compartiment.

The Compartiment promotes environmental and social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088.

Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: Subscription and redemption orders are processed centrally each day before 10.00 a.m. (Luxembourg time) (except for certain days as described in the prospectus).

Distribution Policy: This product is accumulating. The directors do not expect to declare any dividends. All fund income is reinvested.

Intended investor:

This class P is available (except "US Persons"), at the discretion of the Management Company, to investors who comply with the following eligibility criteria: (a) retail investors investing via a distributor in circumstances where such distributor: i. is prohibited by the local laws or regulations applicable to it to receive and/or keep any commissions or other non-monetary benefits; and/or ii. is rendering portfolio management or investment advice on an independent basis (in respect of distributors incorporated in the European Union, as those services are defined in MiFID II); and/or iii. is providing non-independent advice and has agreed with the investor not to receive and retain any commissions; and (b) institutional investors. The recommended investment term is a minimum of 5 years.

This product is a medium risk vehicle aiming to provide long term capital growth through the convertible bond markets, regardless of market conditions. It may be suitable for investors who are more concerned with minimising risks rather than maximising upwards. In particular, this Compartiment can offer similar returns of an equity fund but with a potential lower volatility associated to bonds.

The minimum investment is GBP 1,000.

Term

The product is incorporated for an undefined period. The board of directors of the Fund may terminate it unilaterally under the conditions set forth in the prospectus.

In the case of termination, the directors may offer to the shareholders of this product the conversion into another class of another compartment under the conditions set forth in the prospectus and by the directors.

Practical information

Depository: CACEIS Bank, Luxembourg Branch, 5 Allée Scheffer, L-2520 Luxembourg.

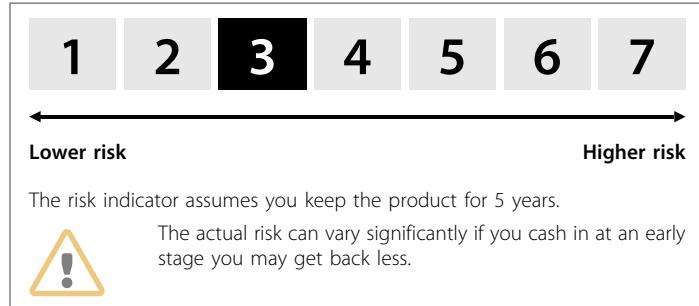

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each compartment are segregated by law, meaning that the liabilities allocated to one

compartment may not impact the other compartments. Shareholders are entitled to convert their shares in shares of another compartment/class of the Fund, as described under "Conversion of Shares" section of the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price per share may be obtained free of charge, in English, at the registered office of the manufacturer Boussard & Gavaudan Gestions S.A.S, 69 boulevard Haussmann, 75008 Paris, France and at www.boussard-gavaudan.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Not all risks affecting the product are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including overexposure risk as the level gearing envisaged is 1 to 2.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.boussard-gavaudan.com.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 29 October 2021 and 31 October 2022.

Moderate: this type of scenario occurred for an investment between 28 September 2013 and 28 September 2018.

Favourable: this type of scenario occurred for an investment between 30 June 2016 and 30 June 2021.

What happens if Boussard & Gavaudan SICAV is unable to pay out?

You are exposed to the risk Boussard & Gavaudan SICAV might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) £ 10,000 is invested.

Example Investment £ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	£ 159	£ 1,137
Annual cost impact*	1.6%	2.0%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 4.2% before costs and 2.2% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking into account the above objectives and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Redemption requests must be received before 10:00 a.m., Luxembourg time, on each day, to be dealt with on the basis of the net asset value per share applicable on the relevant valuation day. Payment for redemptions is expected to be made within 2 business days after that valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.boussard-gavaudan.com/en/p/22/legal-info. You can also send your complaint to the fund's management company at: Boussard & Gavaudan Gestion S.A.S., 69 boulevard Haussmann, 75008 Paris, France, or by e-mail to info@bgam-fr.com. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Not all risks affecting the product are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including overexposure risk as the level gearing envisaged is 1 to 2.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.boussard-gavaudan.com.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 August 2021 and 20 September 2022.

Moderate: this type of scenario occurred for an investment between 28 February 2017 and 28 February 2022.

Favourable: this type of scenario occurred for an investment between 30 June 2016 and 30 June 2021.

What happens if Boussard & Gavaudan SICAV is unable to pay out?

You are exposed to the risk Boussard & Gavaudan SICAV might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 238	€ 1,465
Annual cost impact*	2.4%	2.5%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 4.8% before costs and 2.3% after costs.

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking into account the above objectives and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Redemption requests must be received before 10:00 a.m., Luxembourg time, on each day, to be dealt with on the basis of the net asset value per share applicable on the relevant valuation day. Payment for redemptions is expected to be made within 2 business days after that valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.boussard-gavaudan.com/en/p/22/legal-info. You can also send your complaint to the fund's management company at: Boussard & Gavaudan Gestion S.A.S., 69 boulevard Haussmann, 75008 Paris, France, or by e-mail to info@bgam-fr.com. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

What is this product?

Type

This product is a class of share of the Compartiment and denominated in EUR. The Fund BOUSSARD & GAVAUDAN SICAV is an open-ended investment company with a variable capital and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

As an investment fund, the return of the Compartiment depends on the performance of its underlying assets.

Objectives

Investment objective: The investment objective of this Compartiment is to provide capital growth over long term period by investing and arbitraging primarily in a diversified portfolio of "Convertible Securities" (as defined in Appendix 2, Section I 1.2 of the prospectus). The Compartiment aims to outperform the Refinitiv® Global Focus hedged in EUR over a recommended investment horizon of five years.

Investment policy: At least 2/3 of the Compartiment's net assets will be invested in Convertible Securities or other debt securities issued by (or referencing) companies (i) domiciled or operating in Europe and North America or (ii) within groups conducting a preponderant part of their activities in Europe and North America. The strategies aim to gain market exposure primarily to European and North American companies via convertible bonds, equity options and index options.

The portfolio construction will depend on investment opportunities, mostly based on internal fundamental research and selection, and on the risk management. Because of its hybrid nature and different several components, Convertible Securities may present opportunities to pursue several strategies from time to time:

- Long exposure: this strategy involves taking a long position in a convertible bond in an attempt to profit from:
 - credit improvement (narrowing of spreads),
 - current income (carrying yield),
 - equity appreciation, and/or
 - special situation or merger arbitrage.
- Convertible bond arbitrage (including mandatory convertible bonds arbitrage), expressed with long convertible bond, short the underlying stock and sometimes short the issuer credit
 - seeking to take advantage of the fixed income and equity characteristics of a convertible bond through an arbitrage when the price of the convertible bond differs from the sum of the value of each of its components. The equity component is often hedged by short selling the underlying stock and may also involve seeking to hedge interest rate or credit exposures;
 - seeking to take advantage of the "skew" through a cheap call volatility compared to the issuer credit level.

On an ancillary basis, the Compartiment may also:

- take exposure to any other transferable securities such as, but not limited to, equities, and any other financial derivative instruments such as, but not limited to, CFDs, warrants, rights, callable asset swaps, index futures, forwards, and/or
- Invest in exchange-traded funds (ETFs) of open and closed-ended type.

For all strategies, selection shall be based mostly on internal fundamental research and may present a bias towards value securities.

The Compartiment is actively managed and uses the benchmark for performance comparison purposes only. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant. The benchmark does not take into account the ESG strategy promoted by the Compartiment.

The Compartiment promotes environmental and social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088.

Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: Subscription and redemption orders are processed centrally each day before 10.00 a.m. (Luxembourg time) (except for certain days as described in the prospectus).

Distribution Policy: This product is accumulating. The directors do not expect to declare any dividends. All fund income is reinvested.

Intended investor:

This class S is suitable at the discretion of the management company, to the staff (except "US Persons") and other connected parties of the Investment Manager, the management company and their affiliates. The recommended investment term is a minimum of 5 years.

This product is a medium risk vehicle aiming to provide long term capital growth through the convertible bond markets, regardless of market conditions. It may be suitable for investors who are more concerned with minimising risks rather than maximising upwards. In particular, this Compartiment can offer similar returns of an equity fund but with a potential lower volatility associated to bonds.

The minimum investment is EUR 1,000.

Term

The product is incorporated for an undefined period. The board of directors of the Fund may terminate it unilaterally under the conditions set forth in the prospectus.

In the case of termination, the directors may offer to the shareholders of this product the conversion into another class of another compartment under the conditions set forth in the prospectus and by the directors.

Practical information

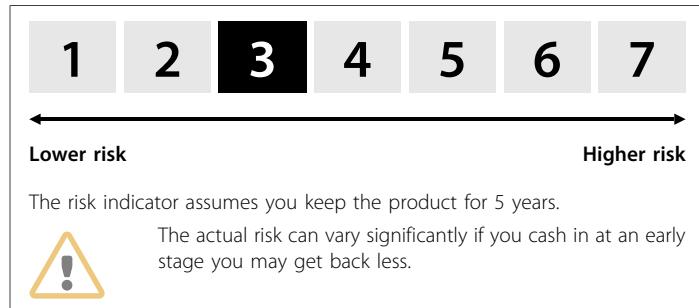

Depository: CACEIS Bank, Luxembourg Branch, 5 Allée Scheffer, L-2520 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each compartment are segregated by law, meaning that the liabilities allocated to one compartment may not impact the other compartments. What is this product?

Type

This product is a class of share of the Compartiment and denominated in EUR. The Fund BOUSSARD & GAVAUDAN SICAV is an open-ended investment company with a variable capital and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

As an investment fund, the return of the Compartiment depends on the performance of its underlying assets.

Objectives

Investment objective: The investment objective of this Compartiment is to provide capital growth over long term period by investing and arbitraging primarily in a diversified portfolio of "Convertible Securities" (as defined in Appendix 2, Section I 1.2 of the prospectus). The Compartiment aims to outperform the Refinitiv® Global Focus hedged in EUR over a recommended investment horizon of five years.

Investment policy: At least 2/3 of the Compartiment's net assets will be invested in Convertible Securities or other debt securities issued by (or referencing) companies (i) domiciled or operating in Europe and North America or (ii) within groups conducting a preponderant part of their activities in Europe and North America. The strategies aim to gain market exposure primarily to European and North American companies via convertible bonds, equity options and index options.

The portfolio construction will depend on investment opportunities, mostly based on internal fundamental research and selection, and on the risk management. Because of its hybrid nature and different several components, Convertible Securities may present opportunities to pursue several strategies from time to time:

- Long exposure: this strategy involves taking a long position in a convertible bond in an attempt to profit from:
 - credit improvement (narrowing of spreads),
 - current income (carrying yield),
 - equity appreciation, and/or
 - special situation or merger arbitrage.
- Convertible bond arbitrage (including mandatory convertible bonds arbitrage), expressed with long convertible bond, short the underlying stock and sometimes short the issuer credit
 - seeking to take advantage of the fixed income and equity characteristics of a convertible bond through an arbitrage when the price of the convertible bond differs from the sum of the value of each of its components. The equity component is often hedged by short selling the underlying stock and may also involve seeking to hedge interest rate or credit exposures;
 - seeking to take advantage of the "skew" through a cheap call volatility compared to the issuer credit level.

On an ancillary basis, the Compartiment may also:

- take exposure to any other transferable securities such as, but not limited to, equities, and any other financial derivative instruments such as, but not limited to, CFDs, warrants, rights, callable asset swaps, index futures, forwards, and/or
- Invest in exchange-traded funds (ETFs) of open and closed-ended type.

For all strategies, selection shall be based mostly on internal fundamental research and may present a bias towards value securities.

The Compartiment is actively managed and uses the benchmark for performance comparison purposes only. The Investment Manager is not in any way constrained by a benchmark in its portfolio positioning. The deviation from the benchmark may be complete or significant. The benchmark does not take into account the ESG strategy promoted by the Compartiment.

The Compartiment promotes environmental and social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088.

Given the above objectives and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and Dealing: Subscription and redemption orders are processed centrally each day before 10.00 a.m. (Luxembourg time) (except for certain days as described in the prospectus).

Distribution Policy: This product is accumulating. The directors do not expect to declare any dividends. All fund income is reinvested.

Intended investor:

This class I is suitable for institutional investors only (except "US Persons"). The recommended investment term is a minimum of 5 years.

This product is a medium risk vehicle aiming to provide long term capital growth through the convertible bond markets, regardless of market conditions. It may be suitable for investors who are more concerned with minimising risks rather than maximising upwards. In particular, this Compartiment can offer similar returns of an equity fund but with a potential lower volatility associated to bonds.

The minimum investment is EUR 5,000,000.

Term

The product is incorporated for an undefined period. The board of directors of the Fund may terminate it unilaterally under the conditions set forth in the prospectus.

In the case of termination, the directors may offer to the shareholders of this product the conversion into another class of another compartment under the conditions set forth in the prospectus and by the directors.

Practical information

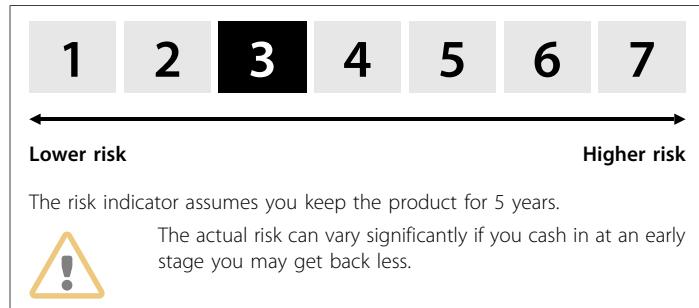

Depository: CACEIS Bank, Luxembourg Branch, 5 Allée Scheffer, L-2520 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each compartment are segregated by law, meaning that the liabilities allocated to one compartment may not impact the other compartments. Shareholders are entitled to convert their shares in shares of another compartment/class of the Fund, as described under "Conversion of Shares" section of the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price per share may be obtained free of charge, in English, at the registered office of the manufacturer Boussard & Gavaudan Gestion S.A.S., 69 boulevard Haussmann, 75008 Paris, France and at www.boussard-gavaudan.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Not all risks affecting the product are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including overexposure risk as the level gearing envisaged is 1 to 2.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.boussard-gavaudan.com.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 29 October 2021 and 30 November 2022.

Moderate: this type of scenario occurred for an investment between 30 October 2015 and 30 October 2020.

Favourable: this type of scenario occurred for an investment between 30 June 2016 and 30 June 2021.

What happens if Boussard & Gavaudan SICAV is unable to pay out?

You are exposed to the risk Boussard & Gavaudan SICAV might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 114	€ 1,050
Annual cost impact*	1.1%	1.8%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 4.2% before costs and 2.4% after costs.

Distribution Policy: This product is accumulating. The directors do not expect to declare any dividends. All fund income is reinvested.

Intended investor:

This class P is available (except "US Persons"), at the discretion of the Management Company, to investors who comply with the following eligibility criteria: (a) retail investors investing via a distributor in circumstances where such distributor: i. is prohibited by the local laws or regulations applicable to it to receive and/or keep any commissions or other non-monetary benefits; and/or ii. is rendering portfolio management or investment advice on an independent basis (in respect of distributors incorporated in the European Union, as those services are defined in MiFID II); and/or iii. is providing non-independent advice and has agreed with the investor not to receive and retain any commissions; and (b) institutional investors. The recommended investment term is a minimum of 5 years.

This product is a medium risk vehicle aiming to provide long term capital growth through the convertible bond markets, regardless of market conditions. It may be suitable for investors who are more concerned with minimising risks rather than maximising upwards. In particular, this Compartiment can offer similar returns of an equity fund but with a potential lower volatility associated to bonds.

The minimum investment is EUR 1,000.

Term

The product is incorporated for an undefined period. The board of directors of the Fund may terminate it unilaterally under the conditions set forth in the prospectus.

In the case of termination, the directors may offer to the shareholders of this product the conversion into another class of another compartment under the conditions set forth in the prospectus and by the directors.

Practical information

Depository: CACEIS Bank, Luxembourg Branch, 5 Allée Scheffer, L-2520 Luxembourg.

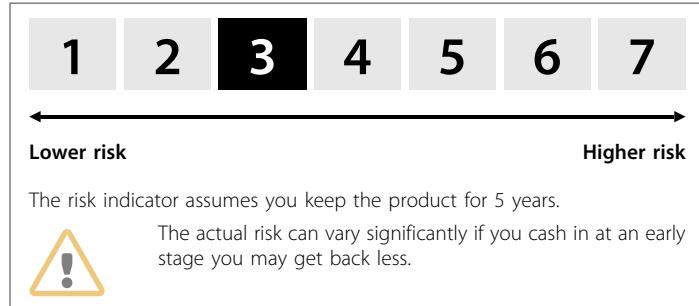

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each compartment are segregated by law, meaning that the liabilities allocated to one

compartment may not impact the other compartments. Shareholders are entitled to convert their shares in shares of another compartment/class of the Fund, as described under "Conversion of Shares" section of the prospectus.

Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price per share may be obtained free of charge, in English, at the registered office of the manufacturer Boussard & Gavaudan Gestion S.A.S., 69 boulevard Haussmann, 75008 Paris, France and at www.boussard-gavaudan.com.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Not all risks affecting the product are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including overexposure risk as the level gearing envisaged is 1 to 2.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.boussard-gavaudan.com.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 29 October 2021 and 30 November 2022.

Moderate: this type of scenario occurred for an investment between 30 October 2015 and 30 October 2020.

Favourable: this type of scenario occurred for an investment between 30 November 2012 and 30 November 2017.

A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0% annual return) and, for the other holding periods, the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 159	€ 1,002
Annual cost impact*	1.6%	1.7%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 4.9% before costs and 3.2% after costs.

How long should I hold it and can I take money out early?

Recommended holding period ("RHP"): 5 years

The RHP has been defined by taking into account the above objectives and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Redemption requests must be received before 10:00 a.m., Luxembourg time, on each day, to be dealt with on the basis of the net asset value per share applicable on the relevant valuation day. Payment for redemptions is expected to be made within 2 business days after that valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.boussard-gavaudan.com/en/p/22/legal-info. You can also send your complaint to the fund's management company at: Boussard & Gavaudan Gestion S.A.S., 69 boulevard Haussmann, 75008 Paris, France, or by e-mail to info@bgam-fr.com.
